DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3-8, and 11-15 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Applicant has sufficiently amended and narrowly defined an accessory cartridge for removable and interchangeable reception in a specialized lighting fixture, specifically the structure of a resilient retainer clip element therein. Said retainer clip defining a contoured spring element with wing-like side elements that is not taught by the prior art of record.

Thus, the prior art fails to teach or suggest the combination of structural elements disclosed and claimed herein, and all subsequent claims are allowed due to dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
